

DESIZING AGENT

CODE	PRODUCT NAME	APPLICATION	DESCRIPTION
V115	OJAS - DESIZE09	Desizing agent	Suitable for desizing of synthetic sizes such as PVA, CMC & PA in jigger or over flow machine. It is specially suitable for desizing of synthetic fabrics such as nylon, satin, polyester which are high density & high sizing content. It can be prevent synthetic sizes from back staining. DOSAGE: Jig machine : 2-3 gpl, Overflow machine 1-2 gpl
V116	OJAS - Ds002	Desizing agent	Suitable for desizing of synthetic sizes such as PVA, CMC & PA which are high density & high sizing content synthetic fibre in over flow process. It has strong oxidation ability & can be used in one-bath processing of caustic reduction, oil removing & desizing. It can be effectively decompose the sizing & prevent synthetic sizes from back staining. DOSAGE: Overflow machine 1-2 gpl
