

ENZYME

ENZYME - CELLULASE

CODE	PRODUCT NAME	APPLICATION	DESCRIPTION
V117	OJAS - CA CONC	Biopolish	Most preferred acid cellulase for Biopolishing of Cellulosic substrates both in fabric and garments form.
V118	OJAS - BPZ	Biopolish	Cost effective acid enzyme for Biopolishing and Biowashing of Cellulosic material.
V119	OJAS - PDF	Biopolish	Rapid acid cellulase for Biowashing of Denim (Aggressive denim Fading) and Biopolishing of Cellulosic garments.
V120	OJAS - DNM	DENNIM	Neutral cellulase enzyme for Denim, gives uniform Cutting with Minimum Back Staining on white pockets.

ENZYME AMYLASE

V121	OJAS - PHC	Bleach	Highly concentrated thermophilic enzyme suitable for Continuous Bleach Range (CBR) and exhaust application.
V122	OJAS - HTN	Desize	Effective Desizing Enzyme for Starch and its combination with other sizes.
V123	OJAS - HC	Desize - Denim	Concentrated product mainly used in Denim Garment Desizing.
V124	OJAS - DZ	Conventional	Conventional Bacterial Alpha Amylase suitable for Pad Batch as well as Exhaust Application

ENZYME PECTIN LYASE

V126	OJAS - BSC	BIOSCOUR	New Bioscouring enzyme for Scouring Cotton / Linen works well at elevated temp for removal of Pectin and wax which is trapped with Pectins.

ENZYME CATALASES

CODE	PRODUCT NAME	APPLICATION	DESCRIPTION
V029	OJAS - PK Enzyme	Peroxide Killer	Suitable for bio-cleaning for peroxide in all kinds of process. DOSAGE: Exhaustion : 0.05 - 0.1 gpl
V125	OJAS - ARL	Peroxide Killer	Hybrid catalase enzyme suitable for Peroxide decomposition works on Broad pH and temp range.
